出版时间:2006-3-3

装帧:Paperback

isbn:9780761947578

C. Wright Mills' classic *The Sociological Imagination* has inspired generations of students to study Sociology. However, the book is nearly half a century old. What would a book address, aiming to attract and inform students in the 21st century? This is the task that Steve Fuller sets himself in this major new invitation to study Sociology. The book: "critically examines the history of the social sciences to discover what the key contributions of Sociology have been and how relevant they remain" demonstrates how biological and sociological themes have been intertwined from the beginning of both disciplines, from the 19th century to the present day "covers virtually all of sociology's classic theorists and themes" provides a glossary of key thinkers and concepts. This book sets the agenda for imagining Sociology in the 21st century and will attract students and professionals alike.

终于指出了new imagination是什么—android&cyborg挑战下对人性的重新审问。humanity跟morality无关，是自私基因reproduction的外在表现和各种冠冕堂皇的伪装。人类超越其他物种吗？biological roots and gene research提出异议。既然人类与其他物种没什么区别，那么社会学还有什么存在意义？!the pervasive belief-natural selection是不是跟医疗技术社会进步财富公平这些现代社会积极倡导的policy完全背离？对纳粹的辩护提供了有趣的思路。总而言之非常‘理性客观中立’看来人文学科最喜欢的就是estrangle and destruct us from ordinary believes
