With Cold War politics lost as the organizing principle behind international politics, development has become the most important policy goal of every international organization. There is an underside (and a human side) to development, and feminism has made inroads into the highly technical debates and frothy prophecies by examining what the future really holds for the people who will live it. This book highlights the ways in which feminist analysis has contributed to a richer understanding of international development and globalization. By combining theoretical, empirical, and political perspectives and discussing cutting-edge debates around development, globalization, economic restructuring, and feminist economics, *Gender, Development and Globalization* presents the ultimate primer on global feminist economics.

豆瓣上还没有第二版，先码个第一版。第二版增补了许多近十年的相关研究，非常值得一读。我建议所有国内的女权主义者，都好好看看国外学者是怎么讨论gender和development这个议题的，摆事实，讲道理，引文献，甩那些整天在微博知乎上嚷嚷“在中国做女人是怎样的体验”的人不知道几十条街。有一句说一句，中国的性别平等程度在发展中国家里面已经相当高了。
