This accessible book examines critically the writings of Deleuze and Guattari, clarifying the ideas of these two notoriously difficult thinkers without over-simplifying them. Divided into three sections - Knowledge, Power, and Liberation of Desire - the book provides a systematic account of the intellectual context as well as an exhaustive analysis of the key themes informing Deleuze and Guattari's work. It provides the framework for reading the important and influential study *Capitalism and Schizophrenia* and, with the needs of students in mind, explains the key concepts in Deleuze and Guattari's discussion of philosophy, art and politics. Definitive and incisive, the book will be invaluable in situating the philosophy of these two major figures within the perspective of the social and human sciences.
