Book Companion Site For at least a decade, media prognosticators have been declaring the death of radio, daily newspapers, journalistic ethics, and even journalism itself. But in Convergence Journalism-an introductory text on how to think, report, write, and present news across platforms-Janet Kolodzy predicts that the new century

will be an era of change and choice in journalism. Journalism of the future will involve all sorts of media: old and new, niche and mass, personal and global. This text will prepare journalism students for the future of news reporting.
