出版时间:2006-4

装帧:HRD

isbn:9780275978938

This work is a critical analysis of the various aspects of social work education and practice. It argues that social work is still a profession searching for a firm identity and a clear and respectful image. The incorporation of science and scientific approach into social work education and practice appears to be the key for the profession to continue to grow and to gain its rightful place in the professional and academic communities. Lastly, this book is intended to generate productive dialogues to advance the profession and its educational processes.
