出版时间:2006-7

装帧:Pap

isbn:9780130492937

For laboratory courses in human osteology (human skeletal anatomy) and forensic anthropology at the junior/senior level. This manual is designed to serve three purposes: to be used as a general introduction to the field of forensic anthropology; as

a framework for training; and as a practical reference tool. The text will make students aware of the challenges and responsibilities of the forensic scientist, the multidisciplinary nature of the work, and the international potential for the forensic sciences.
