This new edition offers a variety of clearly written and readily accessible articles from the Smithsonian's highly acclaimed, award-winning publication AnthroNotes. Some of the world's leading anthropologists explore fundamental questions humans ask about themselves as individuals, as societies, and as a species. The articles reveal the richness and breadth of anthropology, covering not only the fundamental subjects but also the changing perspectives of anthropologists over the 150-year history of their field. Illustrated with original cartoons by anthropologist Robert L. Humphrey, Anthropology Explored opens up to lay readers, teachers, and students a discipline as varied and fascinating as the cultures it observes.
