A rich source for students of Greek mythology and literature, the Homeric hymns are also fine poetry. Attributed by the ancients to Homer, these prooimia, or preludes, were actually composed over centuries and used by poets to prepare for the singing or recitation of longer portions of the Homeric epics. In his acclaimed translations of the hymns, Apostolos Athanassakis preserves the essential simplicity of the original Greek, offering a straightforward, line-by-line translation that makes no attempts to masquerade or modernize. For this long-awaited new edition, Athanassakis enhances his classic work with a comprehensive index, careful and selective changes in the translations themselves, and numerous additions to the notes which will enrich the reader's experience of these ancient and influential poems.

## 评论

Neat translation and interesting anecdotes of modern Greece, but some ramblings in the notes are quite facepalm-worthy...

-----  
Aphrodite我好喜欢你! Demeter我真的不懂你T.T

-----  
Poetry is untranslatable...

-----  
Hymn to Demeter, Hymn to Apollo, Hymn to Hermes, Hymn to Aphrodite

-----  
Required textbook for my Greek Mythology class.

-----

## 书评

boring shit. I can even finish one section. I tried to finish to demeter, but it was just a book with fancy words.
