isbn:9780814782804

Drug testing has become the norm in many workplaces. In order to get a job, potential employees are required to provide their urine for testing. Pissing on Demand examines this phenomenon along with the resulting rise of the anti-drug testing movement, or the "detox industry," that works to beat these tests. Strategies include over-the-counter products like "body flushers" that sound innocent but are really designed to mask the presence of illegal drugs to kits advertised in pro-drug publications like High Times that make no bones about their real purpose. The first expose of the detox industry in all its manifestations, this book is required reading for anyone concerned with social control, privacy, and workers' rights.
