出版时间:2003-11

装帧:Pap

isbn:9780631230526

Offering an alternative to traditional textbooks, Mesoamerican Archaeology: Theory

and Practice places the reader in the middle of contemporary debates by top archaeologists actively exploring the major prehispanic societies of Central America.

Offers a comprehensive introduction to the archaeology of Mesoamerica by focusing on key time periods, sites, and the issues these times and places require us to confront.

Examines key moments in the Mesoamerican historical tradition, from the earliest villages where Olmec art flourished, to the Aztec and Maya City-states that Spanish invaders described in the 16th century.

Engages the chronological benchmarks of precolumbian social development in Mesoamerica, such as the transition to village life, emergence of political stratification, and formation of Mesoamerican urban centers.

Includes an extensive introduction by the editors that situates contemporary Mesoamerican archaeology in the broader terms of the social politics of archaeology.
