出版者:Routledge

出版时间:2003-2

装帧:Pap

isbn:9780415946421

Undertaken as part of the National Science Foundation's call for research associated with 9/11 terrorist attacks, this volume contains research addressing the immediate role and utility of geographical information and technologies in emergency management. It also initiates an on-going process to help develop a focused national research agenda on the graphical dimensions of terrorism. Areas covered include: geospatial data and technologies infrastructure research, root causes of terrorism, vulnerability science and hazard research.
