This unique handbook for coaches captures word-of-mouth tips, advice, and ideas from America's most extraordinary community youth coaches. Advice is provided on how to quickly create an atmosphere of pride, fun, excitement, and teamwork while continuing to teach kids the mechanical aspects of baseball and promoting excellence

on the field. Lessons learned by coaches are passed along through organised sections of coaches' tips, coaches' favourite drills, and classic anecdotes of the trials and triumphs of leading groups of young players. A tips & advice section offers proven strategies for organising a team, holding preseason parent meetings, conducting fun and effective practices, coaching and motivating players during games, managing parents, working with umpires, and making it all fun.
