By popular demand, nearly 15 years after the original that started it all, the sequel is finally here. The University of Minnesota's illustrious hockey history comes to life like never before in best-selling sports author Ross Bernstein's newest offering: MORE... Gopher Hockey by the Hockey Gopher. Bernstein, after a failed attempt to make it as a walk-on to the Gopher Hockey team in the late 1980s, opted instead to serve as the team's mascot, "Goldy." His hilarious accounts as the mischievous rodent back at old Mariucci Arena inspired the 1992 cult best-seller Gopher Hockey by the Hockey Gopher. The sequel picks up where the old one left off, and chronicles both the men's and the women's back-to-back NCAA national championships. Hundreds of interviews and biographies are woven throughout the book, which also includes tons of great stories, history and drama. Forewords by Darby Hendrickson, Jordan Leopold, Natalie Darwitz and Krissy Wendell, it is a must-read for any Minnesota hockey fan.
