This is a tightly structured personal narrative set in the grouse and woodcock covers surrounding Fergus's longtime home in Pennsylvania. The author focuses his text around bird hunts behind his springer spaniels, but A Hunter's Book of Days is much more than a chronicle of sporting memories. Within the book's chapters, Fergus deals with the loss of covers, land development, and life-altering events, all neatly linked to thoughts on dogs, guns, bird hunting, love of home ground, and friendship.
