isbn:9781881652199

Micronesia, with its tremendous variety and World War II history, has become a major

destination for divers. Covered are the best dive sites in Guam, the Marianas, Yap, Palau, Truk, Pohnpei, Kosrae, and the Marshalls including Bikini. While the diving and marine life are the major focus of this volume, the author includes a detailed account of each region’s history, and the customs and culture of the societies found there. Included are his recommendations on what to see, where to stay and where to eat.
