All the facets of the team building process, including team tactics and psychology, are included down to the minutest detail. Also included is how youth talent, per age group category, should be developed. And finally, how to set up training sessions to achieve the best results. All the chapters are interspersed with examples from Rinus Michels' personal experiences as a trainer. At the same time he gives a reference framework for everyone who is, on a daily basis, involved with the team building process: from youth and professional coaches to managers in the business world. Because of these unique examples, most of which were never published, this will be a fascinating book for anyone involved in a team building process.
