It's W.A.R. out there and there's no one better to have on your side than Cliff Stewart. A

personal protection specialist to the world's rich and famous -- from Saudi Arabian sheiks and members of Royal Families to Muhammad All and Mr. T -- for more than 20 years, Stewart has distilled and crystallized the sum of his knowledge into a system called "Within Arms Reach" (W.A.R.). As a bodyguard who must rely on his instincts and skills to neutralize any attack, Stewart created a system which provides instant response with maximum effect. W.A.R. was created specifically for non-martial arts types -- professional protection specialists who had little time to learn the kinds of responses which could ultimately save the lives of their clients. W.A.R. gives you the tools to go into battle with the latest, most-innovative techniques known to man.
