Build the fastest, most exotic sailboats around!

Popular in Hawaii and throughout the South Pacific and Indian Oceans, outrigger

canoes combine the romance of the South Seas with a ruthless efficiency of design and breathtaking sailing performance. This is the first book to present complete plans and building instructions for three outrigger sailing canoes.

Based on traditional Hawaiian and Micronesian types, the designs are lightweight, easy to build, and screamingly fast. Author Gary Dierking shows you how to build these boats using stitch-and-glue and strip-planking construction, explains what tools and materials are required, how to rig and equip the boats, and more.

Editorial Descriptions are usually submitted by the manufacturers, publishers and authors. Contact us if you are one of them, and wish to change the above description.
