Tenth Legion has long been considered the greatest--and most hilarious--book on turkey hunting. Many people who hunt turkeys do so with an attention to detail, a regard for strategy, tactics, and operations, and a disregard for personal comfort and convenience that ranks second only to war. As for all cultists, it never occurs to them that they may be anachronisms. Supremely unconscious of the rest of the world, blind and deaf to logic and reason, they walk along their different roads in step to the music of their different drums. Tenth Legion--Tom Kelly's first and most famous book--lets you hear, just one time and however faintly, what so many others have heard with clarity and purpose all their lives: the dim and distant music of that other drum.
