isbn:9780736047036

Aimed at baseball coaches of all levels. This is a practical, user-friendly resource that will help coaches to improve all aspects of the game. Covers the key areas of coaching baseball, including season planning, practice planning, pre and post-game

considerations. Teaching points provide detailed definitions of tactical skills, as well as how to detect and correct technical errors. Coaches will learn the value of teaching both technical and tactical skills, as well as the difference between the traditional and games approaches to coaching.
