出版时间:2007-7

装帧:Pap

isbn:9781599210872

This book is written for all fly fishers, from the beginner to the near-expert. It shows how to cast more accurately, and for longer distances. In addition to basic tips, Lefty Kreh's Longer Fly Casting describes how to get more out of your cast; how to use a shooting head; how to execute the double haul; and how to overcome many common obstacles, including wind, weeds, casting from boats, and more.
