isbn:9781401603342

Automobile racing fans have taken tailgating to the next level and this guide shows how and where to do it best. It is often a 5 day-and night-event with RVs arriving as

early as Wednesday before a race and not leaving until late Sunday night. Every kind of racing draws tailgaters: NASCAR (which more than 6 million fans attend every year), IRL, Champ Cars, drag racing, trucks, and more. The book features Track Guides for nearly 300 venues with expanded content for every NASCAR track, planning guides, racing tailgating etiquette, the latest in tailgating gear, attire, over 50 recipes and resources. Sidebars include tricked out tailgating trucks, information about scanners and frequency for race day, food safety, and more.
