isbn:9781574091601

Encompassing some of the best articles ever to appear in the legendary Rudder magazine, the premier nautical publication in the USA from the first half of the twentieth century, this volume contains a treasure trove of influential writings on a varied and exhaustive array of subjects. This anthology is an invaluable resource, representing a wealth of wisdom unavailable for the past fifty years. Featuring a section devoted to plans and descriptions of many boats by noted designers, and highlighted by contributions from some of the most famous and diverse figures in the history of yachting and sailing from Thomas Flemming Day and C.Andrade to John Alden and L. Francis Herreshoff, The Rudder Treasury is a timeless record of decades of experience.
