isbn:9781591640714

There is no greater power on the soccer field than the game intelligence of the players. With a great variety of attractive and effective simplified games, specially designed to simulate the most important game situations that may occur on the pitch, Horst Wein shows how to stimulate most of the aspects which are involved in game intelligence in young soccer players as well as professionals. Remember, Playing soccer without thinking is like shooting without aiming.
