出版者:Belvoir Publications

出版时间:1999

装帧:Hardcover

isbn:9781879620582

This is the third book in the 3 part series on communicating with your horse by cues. General training principles work together with specific lessons to help you fine-tune each lesson to the ability. The beauty of John Lyons' approach to horse training is that you work with your horse, not against him, to get the results you want. John's method exploits your horse's natural instincts and his desire to do what you ask of him. Horse training is more than just following how-to recipes or memorizing a few dance steps. It involves understanding what you can do to get a horse to perform a particular way and perform that way consistently. In this book, we'll provide you with the tools to end your horse's problem behavior and develop lesson plans so your horse will respond every time you ask. Section I: Ground Handling and Problem Solving Section II: Giving to the Bit Section III: Solutions to Common Riding Problems Section IV: Putting Theory Into Practice
