Here is the biggest, best, and most complete history of classic farm tractors. All North American models make their appearance here - from the classic Green-and-Gold John Deere, the red Farmall, fascinating orphans like the Steel Mule, steamers of the 1800's to the high-powered work horses of the 1970's...In addition to high-detail large-format photography, the volume includes 100 color and black-and-white archive photographs, advertising posters, and brochures - an unparalleled look at these

fascinating machines, and a feast for any tractor enthusiast.
