This is the full story of how the famous BMC Competitions Department at Abingdon

developed the Mini-Minor into a world-beating rally winner during the 1960s. Updated and presented in a larger format, it brings the story right up to date and includes a new chapter on rallycross, plus coverage of classic car rallying where ex-works cars and replicas continue to star. The book examines the technical development of the works Minis from the 850 Mini-Minor to the variants of the Mini-Cooper and the Mini-Cooper "S", including the original works build sheets. It details the official Mini Club Racing Formulae and Championship domination, the 1966 Monte disqualification, and the British Leyland takeover.
