isbn:9781560276791

An in-depth look at what it takes to maintain a light-sport aircraft (LSA) with a ROTAX 912 engine, this DVD is presented by recognised ROTAX experts Phil Lockwood and Dean Vogel. Containing an overview of the basic engine components, including its unique electrical system, the DVD moves on to addresses a wide range of maintenance questions such as How do you check and change the oil? What are the advantages of different types of coolants? and What are appropriate operating temperatures? Tips and tricks for avoiding engine clattering, prolonging the engine's life, and reducing maintenance costs are also included, along with a booklet containing reference checklists. The approximate running time of this title is 78 minutes.
