This book is a pictorial study of men and women drawn from all parts of the country to this little known rural town to take part in the building of a motor car. These workers were a mixture of skilled people from the depressed areas of England and Wales together with the few MG car workers who made the journey with the MG from Oxford to the rural town of Abingdon and its largely agricultural community. This mixture coalesced to become a work force that built a legend - The MG. With 160 photos of factory life, both car-building and during the war effort, this is a fascinating story.
