著者:House, David J.

出版者:Butterworth-Heinemann

出版时间:2005-6

装帧:Pap

isbn:9780750665551

Previously published as "Kemp & Young's Cargo Work", this new edition has been fully revised and expanded to comprehensively reflect unit load containerised systems that

are now used in the majority of cargo shipping, while retaining the necessary detail on transporting key classes of cargoes safely, efficiently and profitably. This is an essential reference for merchant seamen internationally. The book covers general principles and the latest international regulations that affect all cargo work, including cargo types and key characteristics of a wide range of cargo classes. It also details Roll On - Roll Off cargo handling, containerisation, equipment and offshore supply. A crucial reference for students and serving ships crew, now fully revised and expanded, it covers latest International Maritime Organisation Codes, plus the US Homeland Security International Ship and Port Facility Security Code and includes new self-assessment exercises.
