Following the same successful format as the "Caravan and Motorcaravan Manual", this is a comprehensive guide to buying, using, maintaining - even building - a light trailer, up to 3.5 tonnes in weight. Featuring car trailers, trailer tents, tippers, general haulage, and motorcycle carriers, new and used, expert author Brian Bate provides the sort of information that will be invaluable to both novice and experienced trailer users, including authoritative details on the latest legislation affecting trailer usage.
