Known as the Red Maneuvers Book, this learning and teaching aid covers all manoeuvres for Private, Commercial, and Flight Instructor Certificates for low-wing aircraft such as Pipers and Mooneys, complying with current practical test standards and regulations. Topics covered include manoeuvring during slow flight, power-off stalls, lazy eights, spins, short-field approaches and landings, and steep turns and spirals. Maneuvers are shown in full-page spreads, so visual information is absorbed all at once.
