A historical chronicle of IH tractors, from the very first tractor through the IH agriculture division's merger with Case in 1985. Hundreds of nostalgic photographs of Farmalls and other IH tractors, including the rare and unusual models. IH was the largest farm equipment manufacturer through the 1960's (a highly collectible era today) and is still the second most popular line of tractors today. This complete single volume history of IH tractors is loaded with photos from best selling author and photographer Randy Leffingwell.
