With vibrant paint jobs and thunderous engines, choppers are rolling works of art admired by more than just customisers and motorcycle enthusiasts. In this richly illustrated guide, Doug Mitchel focuses his expert camera lens on radical, jaw-dropping custom choppers to demonstrate the art and skill that goes into building choppers. Inside this exciting guide readers will: explore high-powered machines on the cutting edge of design, fabrication and technology; learn from the builders themselves about how each bike came to be; and view 350 stunning photos of bikes built by some of the most respected and admired builders of today and the star designers of tomorrow.
