Referred to as "The People's Racer" by some, the Porsche 911 is arguably the most-recognized sports and racing car in the world. An alphabet soup of road and race variants are chronicled in this full-colour overview spanning more than 35 years of production from 1964 to present. Complete design, production, and performance details are accompanied by a combination of archival and modern colour photography depicting all these 911s. Also included are details of the 911's motorsport heritage in endurance, rally, hill climb, Trans Am, and GT events.
