Fully updated, this is the only illustrated guide to the coast of California ever, one of the most scenic (and photogenic) regions of America. The lure of the coast ranges from the 'Beach Boy' culture of the Malibu and Venice waterfronts of L.A. to the rugged cliffs lined with towering redwoods on the Mendocino coast. In between is the city of San Francisco, very much a coastal city and its playgrounds of Marin and San Mateo Counties, the historic Monterey and Carmel regions, and the Big Sur coast where 5,000 foot mountains rise straight from the ocean on what is truly one of the most

spectacular pieces of coast anywhere in the world. Before you leave for California, be sure to pack your "Fodor's Guide" to ensure you don't miss a thing.
