The Rough Guide Map Kenya is the most detailed and comprehensive map to this alluring country. A hugely popular destination for independent travellers and escorted tourists alike, both for its beaches and the safari parks of the interior. The scale of 1:1,000,000 is large enough to make the map easily manageable whilst also showing enough detail to pinpoint buildings and dirt tracks. The map is designed for all visitors, whether travelling by car or public transport as it includes train lines and stations, petrol stations, airports, distances between towns, road numbers and details of road surfaces.
