China's drive into the 21st century has been fueled by the relationship—and competition—between Beijing, considered by some observers to be the capital of capitals in China, and Shanghai, the nation's economic growth engine. The political and cultural history of China since 1850 has, in many ways, been shaped by Beijing's exercise of policy over what was once a small shipping port and fishing centre. In little more than a century, Shanghai has cast off these nets and is rising to be the region's leading economic metropolis, a position it seems determined to hold, this time with Beijing's blessing. As Beijing bounds forward to host the 2008 Olympics, its majesty, well reflected in its cultural gems—the Forbidden City, The Temple of Heaven and the Ming Tombs—remains unfettered by the country's economic development. This vibrant second edition of *Beijing & Shanghai* brings readers up-to-date on what's hot and what's cool in China's twin cities. Combining the latest information about restoration, entertainment, transportation and accommodation with historical writing, *Beijing & Shanghai* is the sophisticated guide to urban China that travelers have always wanted. 230 color photos, 17 maps.
