Vibrant blue skies and pristine moments in nature leap out of the pages of this large-format, reverent, photographic celebration of Florida's subtropical charms. Showy birds, fanfare sunsets, and lush vegetation meet with human-made wonders such as brightly coloured houses with fancy gingerbread trim, outposts found off the beaten path, and some of Florida's most famous sights shot from unexpected perspectives. An index gives the location for each picture along with commentary on its selection and the camera techniques used to capture it.
