This is a riveting portrait of Pablo Acosta, the scar-faced Mexican padrino who controlled crime along 250 miles of the Rio Grande. It is a linear work that traces the drug lord's rise from humble beginnings, his rapid ascension to power through murder and treachery, his smuggling of sixty tons of cocaine a year into the United States, his struggles to defend his expanding empire against rivals, the betrayals and over-indulgence that fostered his downfall, and his dramatic death at the hands of the same police system that had been giving him protection.
