For more than a century, the horrific story of Jack the Ripper has endured. The ghastly crimes of the world's most notorious serial killer have become legend, and since they were committed, contemporary sleuths have spent many lifetimes attempting to identify their perpetrator." Jack the Ripper's Black Magic Rituals" takes the reader step-by-step through the precise events at the center of the Ripper's reign of terror, uncovering a twisted melange of murder and black magic. More importantly, author Ivor J. Edwards makes a convincing case as to Jack the Ripper's true identity. That man is Dr. Robert Donston Stephenson, an army surgeon, occultist, and magician, who may have also murdered and dismembered his own wife before his terrible spree in Whitechapel began.
