This inspirational and motivational book teaches you how to take advantage of the single most important factor in a successful job search, the power of personal relationships.

At the heart of the book, a systematic, structured 28-day program leads you through the three key components of a successful job search:

Identifying the best job search strategies for your personal goals

Knowing exactly what to do and when to do it

Staying motivated in the face of frustration and rejection

Consistently directing you to the most practical next step in your job search, Get Hired NOW! shows how to figure out what you want, find opportunities and contacts, connect with potential employers, get interviews, and land the job.
