Career Success: Right Here, Right Now!, second edition provides students with everything they need to establish a career and achieve success. It is an interactive text that includes self-assessment exercises, planning and organizing strategies and sound advice for every step of the journey to success. Additionally the book is loaded with

references to numerous web sites and other reading material for students to use throughout their careers. Included with the text is aCD-ROM that features a 15-minute mock-interview and career success video. The video features a complete interview, demonstrating the techniques for getting through it with confidence. All forms and worksheets included in the text are also available on the CD- ROM as editable documents.
