Today's job market and workplace have many unwritten rules for dressing smart and getting ahead. From deciding on what to wear at job interviews to looking professional on the job, this book identifies 101 dressing mistakes men often make that can negatively affect their careers. Includes errors such as looking too casual, inappropriate attire for a business environment, combining the wrong colours, no sense of style, and not having a look that fits into the company's image. Includes invaluable tips on how to improve one's appearance and get ahead in one's career. Includes colour photographs.
