Do you dread the thought of wearing a suit and sitting in front of a computer screen all day? 120 Jobs That Won't Chain You to Your Desk highlights those dream jobs that won't leave you with desk-job slouch at the end of the day. Each job profile in the book includes quotes from people in the field as well as practical advice on launching a career. Some of the jobs profiled require college (and even an advanced degree), some require professional school, and some others simply require a very strong individual will. Many of these professions are tempting but might seem out of reach, since the path is not as direct (or well-traveled) as, say, that for an aspiring attorney or an accountant.

Each job profile includes the following subjects:

- A (Relatively Typical) Day in the Life
- Extreme Days
- Preparing for Success
- Getting Your Foot in the Door
- Biggest Challenges
- Best Perks
