"While it can be rewarding to raise an extremely bright child - quick, curious, sensitive, and introspective - it's also a daunting challenge. Parents need insight into their own motivations (as well as those of their children), and the courage and ability to make tough decisions about their child's development. "Raising Gifted Kids" will help parents understand and cope with the obstacles they face in raising a gifted child, and help them make the best choices for their son's or daughter's growth and happiness. This upbeat and practical book reveals how parents can: help develop their child's potential and self-esteem without pressuring them; plan their child's education; work optimally with schools and teachers; recognize and prevent problems; solve family conflicts over parenting issues; avoid the dangers of living vicariously through their child's accomplishments; and much more. Filled with proven solutions to the unique challenges of raising gifted kids, this book is the powerful yet accessible resource parents have long wished for."

再来推荐一本育儿书，为什么我家没有天才儿童还是要看这本书呢？拿作者的话说，按定义只有1%的孩子是天才，但是超过半数的家长觉得自家娃很有天赋。说个笑话而已。这本书讲的其实就是养娃通则，所谓天才儿童不过是有些极端，有些特殊需要的孩子，有他们的长处也有他们的弱点，最重要的是他们仍然是孩子。所以，这本书还是很适合所有家长读一读的。作者是研究心理学的专家，因此这本书也没有多数心理自助畅销书的那种啰嗦风格，觉得很切中要害。评分五星。
