Your kids aren't following the rules and you're sick and tired of it? You feel as if every conversation ends in a power struggle? If you're looking for a new approach to discipline, open up *Redirecting Children's Behavior*. This popular book is used as a text by thousands of parents in hundreds of parenting classes across the United States--and overseas. You'll understand why, when you see the practical, logical suggestions for rearing self-motivated and responsible children. Author Kvols emphasizes: -Creating win-win situations; Teaching the natural-consequences of misbehavior; and-Developing children's self-esteem and self-control. She also describes different developmental stages and helps us understand what behavior--however annoying--is normal at every age between 18 months and 18 years.
