Thanks to new reproductive technologies and new ways of forming families, the world of parenting is opening up as never before. What defines a legal family? Should there be any restrictions on buying and selling eggs and sperm, or hiring "surrogate mothers"? How many parents can a child have?

While there's no going back to the traditional family, Mary Lyndon Shanley shows us that we don't have to live in moral chaos. She offers a new vision of family law that puts each child's right to be cared for at its center, while also taking into account the complex needs of every family member.

关于作为契约的代孕为什么可撤销那一章，挺能说服人的。妊娠过程中母亲和胎儿的边界是模糊的，孩子不是独立的商品，母亲也不是生产机器，二者在亲密关系中分享自我。而代孕母和胎儿间的这种embodied relationship要强于委托方与胎儿的关系
