In a similar manner to A Tour of the Arnhem Battlefields, this new volume covers in

detail the scene of one of the greatest battles of World War II. Maps and then-and-now photographs illustrate the battle itself and offer a detailed guide to touring the area as it is today. The book is organized in a series of itineraries, giving detailed information on the pivotal areas of the overall battle: Bastogne, St Vith etc. This book works equally well for the battlefield visitor and those who cannot make the trip but who wish to gain a more detailed appreciation of the terrain on which this massive German counterattack was fought.
