This book examines in detail the final six months of the war on the Eastern Front. It records the gradual and inexorable march of the Red Army towards the ultimate victory. With a narrative drawn from a variety of sources, including first-hand accounts from those who actually fought in the war, the book records the advance of the Red

Army through Poland, Hungary and the Balkans and into Germany itself, and is a sobering account of the destruction of this final phase of the war in the East.
